Step 1 String your beads.

- A: Use your chain nose pliers to completely close the loop on your hook.
- B: String your spacers, beads and eye pin onto the hook.

Step 2 Wrap your coils.

Wrap the end of your eye pin tightly around the base of the hook just above the loop while holding your beads in place. Form two or three full coils.

Step 3 Trim and finish your hook.

Use your wire cutters to trim the excess wire. Use your chain nose pliers to tuck in the end of the wire.
